

International Nature Photography Contest **Magical Nature**

The Nature Photography of the Year 2022

English translation is made only for the purpose of guidance. The organizer can not be held responsible for any misunderstanding, regardless what cause it. In case of doubt, please, contact us!

The aim of the competition is to show and promote great wonders and beauty of the Nature in order to be better understood and more appreciated by the people. It is one and the only we have on our planet and we crucially depend on it. With this contest we would also like to show, how powerful can nature photography be when reaching for those aims.

1. General information

The contest "Magical Nature" is hosted by Association of Slovenian Nature Photographers (ZNFS). The contest is open to amateur as well as professional photographers from around the world. Members of the jury, members of the competition management group and their nearest relatives are not eligible for participation. Every participant can submit up to 24 photographs, but no more than 4 in each category. The same image can not be submitted to more than one category. Photographs which were sent to the contest in previous years, regardless if they were selected or not, will be disqualified.

2. Categories

There are 6 categories, acceptable are images from all corners of our planet:

1. Mammals
2. Birds
3. Other animals (*except mammals or birds*)
4. Plants including lichens, mushrooms, etc.
5. Natural Landscapes
6. Man and nature (*examples of positive or negative influence of man on nature*)

3. Guidelines

- photography must present nature without presence of human or human elements, except when this is part of the story (i.e. white stork nesting on chimney) and in case of entries for category 6.
- presence of elements used for scientific research (bird rings, transmitters, ...) is allowed
- presence of domestic animals or cultivated plants or artificially arranged scenes is not allowed
- digital techniques for adding, removing, moving or copying of objects on the photography (cloning) is not allowed
- cropping is allowed but the longest side of photography must have at least 3000 pixels
- digital techniques which improve photography without changing its content (i.e. sharpening, removal of lens aberrations, noise or sensor dust, managing highlights/shadows, changing white balance, contrast, colour saturation) are allowed, but jury might eliminate entries where editing was to extreme
- HDR and focus stacking is allowed if images were taken at the same location and within short period of time
- picture stitching is not allowed
- black & white and monochromatic images are allowed
- IR images are not allowed
